Pedagogically rich, this new edition examines Canada's growth and development in a socio-historical framework and encourages students to consider some of the tough questions Canadian citizens are likely to face in adjusting to the demands and challenges of life in the twenty-first century. Trevor W. Harrison and John W. Friesen investigate economic, political, cultural, and ideological perspectives through three main relationships: Quebec and Canada, Canada and the United States, and Canada and the Aboriginal Nations. Exploring the unique character of modern Canadian society, this is a vibrant introductory text for sociology courses on Canadian society, as well as undergraduate courses in Canadian studies and Canadian history.

"The quality of scholarship, the breadth of coverage, the strength of analysis, and the clear writing make this text ideal for helping students learn about the complexity of Canadian society."

— Richard Nimijean, School of Canadian Studies, Carleton University

"An understanding of Canadian society requires a critical analysis informed by history, political economy, and the dynamic process through which we 'imagine' our national identities. Harrison and Friesen provide exactly this."
