

# Determinants of Indigenous Peoples' Health, Second Edition Beyond the Social

Now in its second edition, this collection explores how multiple health determinants, such as colonialism, gender, culture, early childhood development, the environment, geography, HIV/AIDS, medicine, and policy, impact the health status of Indigenous peoples in Canada. Grounded in expert voices of First Nations, Inuit, and Métis writers from coast to coast, this updated edition includes a chapter on environment and land defense; a foreword written by Dr. Evan Adams, Chief Medical Officer of the First Nations Health Authority; chapters by Liz Howard and Helen Knott, Indigenous poets; and an updated arrangement that reflects the significant social and political events that dominated headlines over the last two years, such as the protests at Standing Rock, North Dakota, the US national election of 2016, the Indigenous youth suicide epidemic, and the enquiry into murdered and missing Indigenous women and girls in Canada. This revolutionary book is appropriate for undergraduate and graduate students enrolled in courses on health, public and population health, community health sciences, medicine, nursing, and social work.

## Author Information

Margo Greenwood

**\*\*Margo Greenwood\*\*** is a Professor of Education and First Nations Studies at the University of Northern British Columbia.

Sarah de Leeuw

**\*\*Sarah de Leeuw\*\*** is an Associate Professor in the Northern Medical Program at the University of Northern British Columbia and an Associate Professor in the School of Public and Population Health in the Faculty of Medicine at the University of British Columbia.

Nicole Marie Lindsay

**\*\*Nicole Marie Lindsay\*\*** is a Doctoral Candidate in the School of Communication at Simon Fraser University and a Research Associate at the National Collaborating Centre for Aboriginal Health.

## Reviews

"Moving education, specifically in health sciences, beyond western centric pedagogies is necessary. *Beyond the Social* in its second edition has enhanced an already highly useful teaching resource to encompass timely and important discussions of intersectionality of Indigenous health in Canada. A required text to be sure."

—Danielle N. Soucy, Director and Program Coordinator, Indigenous Students Health Sciences Office, McMaster University

"*Determinants of Indigenous Peoples' Health* is a remarkable text, beautifully woven from authentic stories with current academic knowledge and impeccable wisdom. This is the first text on Indigenous people that I have read which moves the reader so eloquently forward beyond the social and provides significant insight as to how we as people both Indigenous and non-Indigenous have come to this place.... a true inspiration, one which has imprinted profoundly on me."

—Trudy Pauluth-Penner, PhD candidate, Social Dimensions of Health Program, University of Victoria  
"*Determinants of Indigenous Peoples' Health* in its new 2nd edition is a highly accessible text that strongly represents the issues and perspectives of well respected Indigenous leaders in the area of health determinants. Important for a wide range of disciplines and practice areas as we respond to the calls to action for Truth and Reconciliation."

—Sonya L. Jakubec, Associate Professor, School of Nursing and Midwifery, Mount Royal University, Calgary, Alberta

"This is a must-read book for anyone interested in Reconciliation, wanting to understand the forces of colonization, or even those already doing the important work of decolonization. [...] It is also informative for those who are working to close the unacceptable gaps and health inequities impacting Indigenous people in Canada."

—Dr. Evan Adams, Chief Medical Officer, First Nations Health Authority

## Table of Contents

Foreword

\_Dr. Evan Adams\_

Introduction to the Second Edition: Rethinking (Once Again) Determinants of Indigenous Peoples' Health

\_Sarah de Leeuw, Nicole Marie Lindsay, and Margo Greenwood\_

**\*\*PART 1 SETTING THE CONTEXT: BEYOND THE SOCIAL\*\***

Chapter 1— Structural Determinants of Aboriginal Peoples' Health  
\_Charlotte Reading\_

Chapter 2— Knausgaard, Nova Scotia  
\_Liz Howard\_
