This book consists of 27 chapters developed from papers originally delivered at a recent conference at the University of Toronto on anti-oppressive practice in social work. Dr. Shera has gathered expert contributors to discuss, define, and analyse theories of social work practice, pedagogical issues, fieldwork practice, models of education of social work practitioners, and current critical issues. These selected conference papers lay the groundwork for anti-oppressive practice in a way that will generate discussion and inspire researchers and practitioners.
