

Troubling Care

Critical Perspectives on Research and Practices

How can we plan, organize, distribute, and offer care in ways that treat both those who need it and those who provide it with dignity and respect? Using the example of residential services, *Troubling Care: Critical Perspectives on Research and Practices* investigates the fractures in our care systems and challenges how caring work is understood in social policy, in academic theory, and among health care providers. In this era defined by government cutbacks and a narrowing sense of collective responsibility, long-term residential care for the elderly and disabled is being undervalued and undermined. A result of a seven-year interdisciplinary research project-in-progress, this book draws together the work of fourteen leading health researchers, including sociologists, medical practitioners, social workers, policy researchers, cultural theorists, and historians. Using a feminist political economy lens, these scholars explore and challenge the theories, work organization, practices, and state-society relations that have come to shape long-term care. *Troubling Care* offers critical perspectives on the often disquieting arena of care provision and proposes alternatives for thinking about and meeting the needs of some of our most vulnerable citizens in ways that go beyond residential care. This book seeks to bridge not only the gaps between disciplines, but also those between theory and practice. Features:

- takes an interdisciplinary approach, making this work appropriate for courses in a variety of disciplines including sociology, medicine, social work, health policy, cultural studies, and political economy
- includes the work of fourteen leading health researchers, including sociologists, medical practitioners, social workers, policy researchers, cultural theorists, and historians
- bridges the gap between theory and practice by incorporating both theoretical research and specific case examples

Author Information

Pat Armstrong
Pat Armstrong is a Distinguished Research Professor of Sociology at York University and a Fellow of the Royal Society of Canada. She is the author of numerous books and articles in health and gender and has held a Canada Health Services Research Foundation/Canadian Institute of Health Research Chair in Health Services.

Susan Braedley
Dr. Susan Braedley is Assistant Professor with the School of Social Work at Carleton University. Dr. Braedley's research focuses on care, gender, racialization and public policy.

Reviews

"Everyone, at some point in their lives, will either need or provide care. Since the giving and receiving of care is not currently equitable, a critical examination of the complex issues in long-term care is important. This book helps us to understand the real costs associated with long-term care. Hopefully, it will force us to re-examine how care is conceived and what is considered acceptable, and will open dialogues that lead to changes that enhance care."— Lynn Meadows, Department of Community Health Sciences, University of Calgary

Table of Contents

Acknowledgements Introduction ****PART ONE: CARING THEORIES**** Chapter One: The Implications of Conceptualizing Care Chapter Two: Imagining an Ethos of Care within Policies, Practices, and Philosophy Chapter Three: Care, Culture, and Creativity: A Disability Perspective on Long-Term Residential Care Chapter Four: A Gender Politics of Long-Term Residential Care: Towards an Analysis ****PART TWO: CARING WORK**** Chapter Five: Counting Carers in Long-Term Residential Care in Canada Chapter Six: Work Organization, Care, and Occupational Health and Safety Chapter Seven: Skills for Care ****PART THREE: CARING PRACTICES**** Chapter Eight: Living Better through Chemistry: Dementia, Long Term Care, and Antipsychotic Medication Use Chapter Nine: New Technologies and Concepts of Care Chapter Ten: Balancing the Tensions in Resident-Centred Care ****PART FOUR: CARING STATES**** Chapter Eleven: Historical Perspectives on Care the Welfare State: The Rise, Retreat, Return, and Reframing of a Key Concept Chapter Twelve: Aging in Welfare States in Austere Times: Long-Term Care Reform in Japan and Germany Chapter Thirteen: Neoliberalism and Official Health Statistics: Towards a Research Agenda References Contributors Index
